

ENGLISH

The information in this manual was correct at the time of going to print, but some minor changes may have been made late in the product's development. All screenshots for this manual have been taken from the English version of this product, and some screenshots might have been taken from pre-completion screens that differ slightly from those in the finished product.

MEMORY STICK™

To save game settings and progress, insert a Memory Stick™ into the Memory Stick™ slot of the PSP™ system. Saved game data can be loaded from the same Memory Stick™ or any Memory Stick™ containing previously saved Buzz!™: The Ultimate Music Quiz data. Make sure there is enough free space on the Memory Stick™ before commencing play.

Buzz!™: The Ultimate Music Quiz uses an autosave feature. Do not remove the Memory Stick™ or switch off the PSP™ system when the Memory Stick™ indicator is flashing or when the autosave icon is displayed on-screen.

The minimum amount of free space required to save Buzz!™: The Ultimate Music Quiz data may vary depending on the capacity of the Memory Stick™ inserted.

WIRELESS (WLAN) FEATURES

Software titles that support Wireless (WLAN) functionality allow the user to communicate with other PSP™ systems, download data and compete against other users via connection to a Wireless Local Area Network (WLAN).

AD HOC MODE

Ad Hoc Mode is a Wireless (WLAN) feature that allows two or more individual PSP™ systems to communicate directly with each other.

GAME SHARING

Some software titles feature Game Sharing facilities which enable the user to share specific game features with other users who do not have a PSP™ Game in their PSP™ system.

INFRASTRUCTURE MODE

Infrastructure Mode is a Wireless (WLAN) feature that allows the PSP™ system to link to a network via a Wireless (WLAN) Access Point (a device used to connect to a Wireless network). In order to access Infrastructure Mode features, several additional items are required, including a subscription to an Internet Service Provider, a network device (e.g. a Wireless ADSL Router), a Wireless (WLAN) Access Point and a PC. For further information and setting up details, please refer to the PSP™ system Instruction Manual.

Buzz!™: The Ultimate Music Quiz supports Game Sharing and Infrastructure Mode.

CONTROLS

To navigate the menus in Buzz!™: The Ultimate Music Quiz, press **↑**, **↓**, **←** or **→** to highlight an option, then press the **ⓧ** button to confirm. To return to the previous menu screen, press the **⓪** button. To play the games, press the **⓪** button, the **Ⓜ** button, the **ⓧ** button or the **Ⓐ** button to answer each question and press the **L** button and the **R** button to perform other tasks.

GETTING STARTED

To begin playing, choose a previously created profile and press the  button to access the Main Menu.

If you are playing Buzz!™: The Ultimate Music Quiz for the first time, you must create a new profile. To do so, press the  and  buttons to highlight a profile category (Name, Icon, Theme or Colour) and then press the  and  buttons to cycle through the options within your selected category. Once you've settled on the perfect pop picker's profile, press the  button. Up to three profiles can be saved at one time so you can easily compare your musical mastery with friends and family!

MAIN MENU

Press  or  to highlight Single Player, Multiplayer, Profiles, Wall of Fame or Options and press the  button to select the highlighted option.

THE GAME SCREEN

-  Question timer
-  Round timer
-  Current question
-  Potential answers
-  Answer buttons

GAME MODES

Whether you're going solo with Single Player or joining a band in Multiplayer, Buzz!™: The Ultimate Music Quiz is totally playing your tune with a variety of pop-tastic game modes to keep you rocking around the clock.

SINGLE PLAYER

To launch your Buzz!™: The Ultimate Music Quiz solo career, choose "Single Player" in the Main Menu and select one of the following four options:

CHART ATTACK

Begin your charge on the charts by selecting one of the following six mini-games – you can take them on in any order you like. Success in each round will bring you bronze, silver, gold and platinum discs as well as handy multipliers to boost your scores. Then, when your Chart Attack is complete, you can see how your position in The Official Buzz! Chart has been affected by your latest efforts and check out the Challenges you've achieved and unlocked.

Boom Box

It's true, my volume goes to eleven. Unfortunately my boom box only goes up to four before the speakers explode – and every incorrect answer pumps up the volume to increasingly dangerous decibels! Answer questions correctly within the time limit to ensure the sounds stay subsonic. Get three wrong and you'll be rooting around for screwdrivers and sticky tape!

Chart Climber

Money makes the world go round but points are the only currency in this mode. So will you risk a total points wipe-out to make it to number one or will you put safety over superstardom and press the **L** button or the **R** button to bank your bonuses?

Time Challenge

Time is running out! Yours that is – in this adrenaline-pumping mode. Answer as many questions as you can in one minute before the buzzer goes to end your charge.

Track Attack

Name that tune in ten. Seconds, that is! Answer correctly as quickly as possible to pick up some serious points and prove your pop credentials. Brace yourself for an audio onslaught!

Who Dat?

This game should be a breeze for the music television generation! To pocket the points in this visually-vexing game, you must beat the clock by clocking the song-related celebrities before the time runs out. Mug shots will only stay on the screen for a few seconds each so keep your eyes on the prize!

Mystery

Feeling lucky, punk? Select "Mystery" mode to play a randomly-selected Chart Attack game mode.

QUICK QUIZ

Life becoming a landslide? Then why not take a break and indulge in a therapeutic two-minute Time Challenge? Beat the clock by answering a number of quick-fire questions and unlock new Challenges as you go.

QUIZ PACKS

Want to mash up your Buzz!™: The Ultimate Music Quiz experience with even more questions? You can play funky Time Challenge and Pass Around games using questions from any or all of your purchased packs.

MULTIPLAYER

Tired of being a one-man-band? Then it's time to get a group together and rock out with four multiplayer modes:

PASS AROUND

I predict a riot with this madcap multiplayer mode. Take on up to five other music buffs in four mini-games in this fast-moving musical relay. Players must pass the PSP™ system between them to answer questions in a battle for song-based supremacy. And remember, to further prove your knowledge, you can also choose to answer questions you've previously downloaded, which can be managed via the Quiz Packs menu.

To add new players to a Pass Around game, select "Pass Around" in the Multiplayer menu, select an empty slot and hit "Edit" to add a new player and choose a name and icon for the new contestant. When you've added all the players you want, select "Start Game" to begin.

Paparazzi: Take it in turns to spot the celebrity as the snappers' flashbulbs light up different areas of their likeness. The quicker you spot the answer, the more points you win – but you risk a forfeit if you guess wrongly so don't go getting too snap-happy!

Ghetto Blaster: My stereo is stuck on random. But unfortunately for you, my plucky pop-pickers, rather than playing random tracks, it has taken to randomly exploding. To ensure you aren't left holding Buzz's Blaster when it goes boom, make sure you answer as quickly as you can and pass the buck to an unlucky opponent.

Double or Nothing: Take a chance on me and my risky randomizer! Take turns to answer questions and spin to double your money after every correct response. But remember, if the needle lands on zero, you'll win precisely nothing! To gamble, press the **R** button when prompted and then press the **X** button to halt the randomizer.

Jackpot: Three is the magic number and that's certainly the case in this streaky challenge. Answer three questions in a row correctly and you'll receive a bass-tastic Buzz!™ bonus on top of all the points lost from incorrect answers since the last jackpot!

PLAY ONLINE

I've been around the world and I, I, I know there are multitudes of music fans just aching to take you on in awesome online versions of Chart Climber, Jackpot and Who Dat? as well as my online-exclusive Quick Fire challenge, which rewards the quickest responses. To test your musical mettle against opponents across the globe, select "Play Online" in the Multiplayer menu and follow the on-screen instructions.

GAME SHARING

Play Buzz!™: The Ultimate Music Quiz wirelessly with up to three friends on multiple PSP™ systems. Simply select "Game Sharing" in the Multiplayer menu to bag the local bragging rights in Who Dat?, Quick Fire, Jackpot and Chart Climber challenges.

BUZZ PARTY

Get some musical mates together and get ready to rumble in your very own battle of the bands. Form two groups and take on exclusive party games that will test your musical knowledge and abilities over four game challenges and six game challenges.

Selecta

Bo! Choose a category from which your rival team must answer four questions and then it's your side's turn to tackle teasers on a subject selected by your opponents. Simple!

Hot Spot

It doesn't get scarier than a team being put on the spot! Oh wait, it does! Choose a single member of the other side to answer four questions on a randomly selected subject. But remember not to catch their eye when they're choosing which of your team to put under the spotlight!

Champions

Select a category for a member of the other team and they can then select a "champion" to answer it. If their champion gets it wrong, their team loses a life and the next question goes to your side. However, if they get it right, the game will continue with another subject and another champion from the same side. The first team to answer ten questions correctly wins. The first team to throw away three lives loses. Oh, and there are bonus points up for grabs for every life each team has at the end!

4 Track

Fancy yourself as a bit of a music trivia maestro? Wanna bet on it? This mystic mini-game asks you to predict how many questions your team will answer correctly on a randomly selected category. You can select a maximum of four for the ultimate points payday but remember that, even if you get one wrong, any points you've gained for the rest will be zeroed! Harsh. But fair.

Face Off

No amount of floor gazing will get you out of taking centre-stage in this one-on-one pop quiz! I will suggest a random match-up, for example the tallest player on one team versus the youngest on the other, and pose five questions to each player. Answer as many as you can to rack up points for you and your pals.

Jump Around

Just in case you're suffering from musical meltdown, this moving mode will get you back in the game. Simply choose a player from the opposition team to perform a mad minute of randomly selected tasks dreamt up by yours truly! Press the **L** button for every one they manage and the **R** button every time they fail or skip a challenge.

WALL OF FAME

Check out all the Challenges you've unlocked in Single Player and Multiplayer game modes on the Wall of Fame. Press the **←** and **→** buttons to bask in your past musical glories and set your sights on future ones.

OPTIONS

Turn the autosave function on or off, load data previously saved to Memory Stick™, save data to Memory Stick™ or switch on Travel Mode so you can still rock at Buzz!™: The Ultimate Music Quiz with the sounds turned down or check out everyone who helped make the game in the Credits.
